Other Information

Management is responsible for the other information. The other information comprises all of the information in the Annual report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRSs), the Companies Act 1994 other applicable laws and regulation and the Securities and Exchange Rules 1987 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Mozaffar Hossain Spinning Mills Limited

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

In accordance with the Companies Act 1994 and the Securities and Exchange Rules 2020 and relevant notifications issued by Bangladesh Securities and Exchange Commission, we also report that:

- a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- b) In our opinion, proper books of accounts, as records and other statutory books as required by law have been kept by the Company so far as it appeared from our examination of these books;

As a backward linkage industry to support 100% export oriented RMG industry of Bangladesh. Products of the company are sold at domestic market as deemed exporter delivered to the export-oriented companies.

3.0 Risk Exposure

3.1 Interest Rate Risk:

MHSML is exposed to the volatility of interest rate as it has long-term Bank Loan. Any higher trend in interest rate in the future will definitely aggravate the adversity.

Management perception:

The management of MHSML has decided to pay off the outstanding Bank Loan gradually to make the Gearing Ratio at a satisfactory level which is expected to reduce the financial leverage and interest burden significantly.

3.2 Exchange Rate Risk:

MHSML is engaged in global trade as it procures its raw materials from overseas markets. Therefore, fluctuations in the related foreign currency rates may affect adversely to the company's liquidity and profitability and expose a threat to the stability of the Company.

Management Perception:

MHSML settles its foreign transaction through US Dollars in case of both export and import. While the value of functional currency fluctuates, the loss or gain on currency fluctuation for export automatically sets off against the loss or gain on currency fluctuation for import. As the value of export is always greater than the value of import, some balance is created in the foreign currency transaction. Furthermore, the Company is contemplating about setting a system of hedging on foreign currency transactions in the future. Movement in the exchange rate adversely may expose the company to risks of foreign currency loss.

3.3 Industry Risks

(a) Market demand:

The products of MHSML are sold to the export-oriented fabrics and garments manufacturer, the ultimate buyer is from abroad. Any economic recession, changes in tastes and fashions of the consumers, national income and other related factors may cause to decline the market demand of the company products.

Management Perception:

MHSML always gives values to its customers' satisfaction and changes in tastes and fashion. Therefore, its expert team promptly dedicates their creativity and research work to respond any changes in customer's demand and product diversifications.

(b) Competition:

MHSML is operating in a free market economy regime. The company might have to face stiff competition from its competitors:

Management Perception:

Bangladesh is the prime source of cheapest garments in the world, earning comparative advantages for its industries over their global competitors. In addition, the management of MHSML employs their efficiencies; expertise and discretions to minimize the cost of its products.

(a) Rising of Raw Materials costs:

The cost of raw cotton and other material are highly volatile and can take movement in any direction. Increasing trend in the raw material cost may hamper the profitability of the company to a greater extent.

Management Perception:

MHSML is aware of the continuing market situation of its raw materials. The management of MHSML believes that long term planning for raw material management, exploring number of global markets, job wise costing for its finished products and trustworthy relations with the suppliers and mitigate the risk of rising of materials cost.

3.4 Risks stemming from technological changes:

Changes in technologies may reduce the cost efficiency of the company.

Management perception:

MHSML had gone for huge BMRE to support the technological changes. The machineries and equipment of the new unit are the latest invention in the sector which is imported from renowned manufacturers of the world.

3.5 Other risk factors

(a) Political Unrest:

Bangladesh is prone to serious unrest in the political condition embraced by Hartal, Road-Block and many other politicized barriers to the business. Due to these factors it would stem the cost of the product upwards.

Management Perception:

During the last forty-seven years of post-independence period, Bangladesh has gone through a variety of political situations. However, presently, a sound political atmosphere is prevailing in the country. Both the ruling and opposition parties are committed to the betterment of the country. Last democratic national assembly election and local council polls are instances of peaceful political situation in Bangladesh.

(b) Possible slowdown in economic growth in Bangladesh:

Our performance and growth are dependent on the sound health of the Bangladesh economy. The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities, commodity and energy prices and various other factors. Any significant change may adversely affect our business and economy significantly.

Management Perception:

Bangladesh economy is booming for last few years. Consistent industrial growth along with increased agricultural production has made the Per Capita Income higher than that of recent years. In addition, favorable government policies and industry friendly policies by other regulatory bodies have proved to be congenial to the economy of the country.

(c) Natural calamities:

Bangladesh is a country where recurrent natural calamities take place every year. It is a serious threat to the business.

Management perception:

This type of situation is totally beyond the control of human being. Though the management of MHSML has a very little to do with, we can and should have some precaution measures to minimize the damage of the business in such situations.
